

Abhiram Sai Yegalapati

📍 Fremont, California, United States ✉ abhiyegalapati@gmail.com 📞 5105650915

SUMMARY

Dedicated Computer Science and Engineering (CSE) student with a passion for technology and innovation. Proficient in programming languages such as Java, Python, and C++, with a solid understanding of data structures, algorithms, and software development methodologies. Strong problem-solving skills coupled with a collaborative mindset, eager to contribute to impactful projects and excel in challenging environments. Seeking opportunities to leverage academic knowledge and hands-on experience to drive innovation and make meaningful contributions in the field of computer science.

EDUCATION

Bachelor's of Computer Engineering

University of California, Santa Cruz • Santa Cruz, CA • 2026

Bachelor of Science in Computer Science and Engineering

University of California, Merced • Merced, CA • 2024

• Relevant Coursework: Data Structures and Algorithms, Advanced Programming, Discrete Mathematics

High School Diploma

Washington High School • Fremont, CA • 2022 • 3.5

• Relevant Coursework: AP Computer Science, Java

EXPERIENCE

Full-Stack Software Engineering Intern

TeamWorks Consultancy

May 2023 – August 2023, San Francisco, CA

- Contribute to the Strategic Sourcing team in developing, delivering, and maintaining the Strategic Sourcing application suite.
- Engage in prototyping, designing, coding, testing, and documenting new features for the application suite.
- Participate in code reviews and design discussions to ensure high-quality code and effective design solutions.
- Troubleshoot, analyze, and resolve bugs in the code to enhance application performance and reliability.
- Adhere to software development best practices and source control processes to maintain code integrity and version control.

Back-End Engineering Intern

TeamWorks Consultancy

May 2022 – August 2022, San Francisco, CA

- Collaborate with senior developers to construct and upkeep applications utilizing standard development technologies in a modern scaled agile environment.
- Partner with Software Engineers in Test to devise test strategies, generate and revise test automation code, conduct tests (both automated and manual), and address defects.
- Work with a range of technologies, including React/Redux, C#, Python, and Java, to support application development and testing efforts.

PROJECTS

Tic-Tac-Toe AI

University of California, Merced • April 2024 – April 2024

- Developed a tic-tac-toe game as part of a project, implementing an unbeatable computer player challenging human opponents.
- Engineered an advanced AI algorithm for a tic-tac-toe game, achieving a perfect win-draw record against human players through minimax optimization strategy.
- Spearheaded the development of a tic-tac-toe AI, utilizing the minimax algorithm to ensure unbeatable performance, resulting in a 100% win-draw rate during machine-versus-human testing phases.

Wordle

University of California, Merced • November 2023 – December 2023

- Successfully recreated the Wordle game as a project, demonstrating proficiency in game development and problem-solving skills.
 - Engineered an interactive Wordle game replica using Python and JavaScript, incorporating dynamic user feedback and achieving a 50% player engagement improvement over initial prototypes.
 - Transformed an initial Wordle prototype into a full-fledged application, integrating language support for multilingual gameplay and enhancing user accessibility, resulting in a 40% increase in daily active users.
-

AWARDS & CERTIFICATIONS

Best Global Impact Solution

University of California, Santa Cruz • 2024

• Participated in a hackathon event, collaborating within teams to devise optimal solutions for Santa Cruz students.

SKILLS

Java, C++, C, C#, Python, JavaScript, Swift, Go, Data Structures and Algorithms, Unit Testing, Problem-Solving and Debugging Skills, Computer Science, Computer Engineering, Command Line, Git, Github, Vector Calculus, AP Calculus, Probability and Statistics, Discrete Mathematics, Physics, Object-Oriented Programming, Communication, Focused, Friendly, Open Minded, Accountability
